

TELEGRAPHIC

TARIFF COMMISSION

WILL BE APPOINTED

To Investigate the Workings of the Present Tariff. No Immediate Changes Probable.

Bulletin Special Despatch.

Ottawa, November 18th.—There will be no tariff changes of any consequence at the next session but after the session there will be an investigation into the working of the present tariff which on the whole has been highly satisfactory.

Sir E. Taschereau is acting Governor General to-day and will be until the arrival of Earl Grey who will arrive sometime about the middle of December.

FIERCE EXPLOSION

IN SOUTH CHICAGO

Several Persons Killed and a Score or More Injured. Building Badly Wrecked.

Chicago, November 19.—Four persons were killed, and a score of others were wounded by a series of gas explosions which completely destroyed the plant of the electric head light company, South Chicago. The shock was so severe that several windows were broken and many buildings badly damaged in the vicinity. Passers by were knocked down and injured, and men in the works were blown out into the street. The damage is estimated at \$75,000.

ARBITRATION TREATY

ENGLAND AND PORTUGAL

Have Decided on a Treaty of Arbitration to Last Five Years. Hague Tribunal to Settle Legal Differences.

London, November 19.—An Anglo-Portuguese treaty of arbitration was issued to-day. It contains only three articles—first, that differences of legal opinion regarding treaties that cannot be decided be referred to permanent arbitration court at the Hague; second, procedure before appeal; and third, that the agreement is for five years.

NATIVE UPRISING

TROUBLE FOR THE KAISER

Kettentots Rebel Against Authority in German Territory in South Africa.

Cape Town, November 19.—A despatch from Livingston, on the Orange river, South Africa, says that two women arrived there, telling of a Hottentot rising in German territory. They report that a number were brutally murdered.

GEN. STOESSEL

TELEGRAPHS TO THE Czar

From Port Arthur That the Garrison can Hold out for Several Months yet

St. Petersburg, November 18.—America is likely to profit from the execution of a large naval program which Russia is elaborating. The government now realizes the vital importance of the naval powers. It knows that should the second Pacific squadron be destroyed, it would have to commence rebuilding a fleet. Altogether the government will probably start great ship building industries in order to be independent of other countries.

General Stoessel telegraphed the Emperor Nicholas that Port Arthur can still hold out for several months.

Mukden, November 18.—On the morning of November 15, after a long silence, a distant roar of cannon was heard, but whether any fighting occurred is unknown.

St. Petersburg, November 18.—Emperor Nicholas will leave for the Caucasus to bid farewell to the Circassian Cavalry on December 3. It is expected that the mobilization at St. Petersburg will be commenced next week.

KILLED BY A FALL

Winnipeg, November 19.—M. L. S. E., a farmer of Gladstone, Manitoba, fell from a stack to-day and broke his neck.

DR. CASH'S VICTORY

Winnipeg, Man., November 19.—Dr. Cash, Liberal, has won a great victory in the Mackenzie constituency. Dr. Patrick is out distanced.

WILL ERECT LARGE GUN FACTORY

New York, November 19.—Charles M. Schwab announces in the Levant that he intends to turn his Bethlehem plant into a first class gun factory equal to the Krupp and the Vickers.

SURVIVORS OF THE MOHAWK

New London, Connecticut, November 19.—Mrs. C. H. Wilbur, wife of the electrician of the Mohawk, and Mrs. Julia Colby, who were on the burned steamer Mohawk, tell a vivid story of the escape from the burning ship and of the bravery shown by the captain and the crew in escaping.

NORMAL SESSIONS

Some time ago the Department of Education announced that a normal session for the training of teachers for first and second class certificates would be held in Regina, commencing January 3, 1905. It has now been decided that a class for training of teachers for third class certificates will be held at the same time and place. The third class session will extend over a period of ten weeks. As it is likely that more applications for admission will be received than can be accepted, owing to the limited accommodation, students desirous of taking training should notify the Department at once.

NEW VARIETIES, PANSIES AND POTATOES

G. D. Clark, of Edmonton, has been experimenting in the improvement of pansies for the past three years. As a result he has produced plants bearing both twin and double flowers, which reproduce true to seed. The Bulletin was shown a photo of one of the twin flowers yesterday. The flower was evidently very large and beautiful. Mr. Clark has also secured varieties bearing silver markings on the flowers; others having silvery foliage. The pansy is essentially a northern flower. It blooms earlier and later than any other garden flower, and gives larger blooms and darker colors in northern than in southern latitudes. It is very appropriate that its improvement should be the result of effort at Edmonton.

Mr. Clark has also originated a variety of potato which seems likely to prove of great value. Some years ago he began the work by planting some of the seed bulbs which grew so plentifully on the blue and white potatoes, which were a standard variety in this district many years ago. Out of the many varieties resulting he has continued the cultivation of one variety, which in shape, yield and flavor is ideal. The color is deep pink which becomes a dark shiny red in places. The shape is very regular. The eyes are numerous, and are scarcely indented at all. The potatoes form early, and ripen early. For several years this variety has given new potatoes fit for use on July 1. This year they were later, and were only fit for use on July 15. Last year a quarter of an acre yielded 300 bushels, and this year a very little larger area yielded a very much larger quantity. The potatoes are very even in size, there being very few small ones in a hill. This season as they were being dug it was found that a second crop had begun to form in the hills, growing out of the first crop. This, no doubt, was due to the extra long season of growth.

Manitoba Grain Markets

Commercial, November 12:

Manitoba wheat has been for the most part dull and inactive and while having a fairly good undertone has not participated in the advance recorded in the outside markets. In fact there is a sharp decline in cash prices on some grades and in December and May wheat in the option market there is an advance of only 1-8c per bushel over closing prices of a week ago. In the cash market the only grade that shows any advance is No. 1 northern, which is 1-2c higher; No. 2 northern is 1-2c lower; No. 3 northern 1c lower; No. 4 extra and No. 4, 3c lower; No. 5 1c lower, and feed 1-2c lower. The decline in No. 4 extra and No. 4 is very heavy and shows that these grades have fallen very much in the estimation of shippers. At close of business to-day we quote prices: No. 1 northern, 98c; No. 2 northern, 93c; No. 3 northern, 88c-89c; No. 4 extra, 79c-80c; No. 4, 78c-79c; No. 5, 68c-69c; feed, 80c; No. 2 feed, 50c; spot or past Winnipeg, and for future delivery, December closed 95c-96c and May, 100c-101c all prices being for in store Fort William and Port Arthur.

Declines of 1c to 2 1/2c per bushel are noted in oats. The market is now in a peculiarly sensitive position and decidedly weak. The lumber camps have been pretty well supplied, and Buffalo prices are not encouraging for export. Large local concerns find it more profitable to buy at country points than at Winnipeg, and as shipments are being made to Winnipeg rather than to Fort William, demands for local consumption are well supplied. Millfeed prices are easy. The demand is weak and offering plentiful. Barley is easy at last week's quotations.

WESTBOUND FREIGHT**Winnipeg Telegram:**

The freight business over the Canadian Northern westward from the head of the lakes is the heartiest in the history of the road and establishes a record for the Western railways, which have always encountered a serious problem in securing freight to fill the large number of empties which are returning after discharging their cargoes of wheat into the elevators. This fall the Canadian Northern has had to forward empty freight cars to Fort Arthur to transport westbound freight.

This feature is an indication of the growing business of Western Canada and is one of the most encouraging signs of prosperity in the country. The rapid growth in Winnipeg and the towns further west creates the demand for the extra freight and the extension of the Canadian Northern railway into a fertile tract of new country, together with the enterprising and vigorous manner in which the department of the road in charge of the freight has gone after business has made it a popular route with the shippers of heavy merchandise.

(Of course the Government policy under which the Canadian Northern is being enabled to extend into fertile tracts of new country has nothing to do with the case in the estimation of the Telegram.)

NEW GREENHOUSE

W. Ramsay's greenhouse on Elizabeth street has grown very extensively since its construction early in September. It was started on fairly modest proportions but in the last two months Mr. Ramsay has been continually adding to the stock until now the large greenhouse is well filled with plants, both in blossom and bud.

The building is 35 feet by 20 feet and has 900 square feet of glass space. The style of building is what is called the three quarters span, that is it is constructed with its side facing the north and south and with a long slope towards the south and a short quarter slope to the north. This is to afford the greatest amount of light during the winter. The north wall of the building is ten feet high and the south wall four feet which shows the great amount of glass space in proportion to the size of the building. The floor of the greenhouse is set two and a half feet below the surface of the ground, and the foundation walls of the building are of brick which lessens the exposure to winter storms and acts as a fuel saver.

The greenhouse is very conveniently laid out and the greatest neatness is apparent on every side. There are four large benches for the flowers with three walks the entire length of the building and pass-ways at each end. The benches are raised in going towards the north, that is, the first bench is nearly on a level with the south wall, the second bench higher, and so on. This arrangement is made to bring the plants as near the light as possible. The two outside benches are each two and a half feet and the other two four and a half feet and three and a half feet wide.

The greenhouse is heated with hot water, a No. 4 Daisy boiler being used. Four pipes through which the hot water circulates are under each bed. A tank in the top of the building furnished with hose attachments

makes a convenient system of plant watering. Electric lights are installed in the building.

The lower part of the greenhouse underneath the benches is used as a fernery. There are some thirty pots of ferns, the principal varieties being the Sword, the Boston and the Fern-son. The Fern-son is an improvement on the Boston, the leaves being subdivided and very pretty.

This bench or bed contains principally young rose plants. The lower part is occupied by a number of pot plants. The second bench is devoted almost entirely to carnations, there being over two hundred plants. The bed is a blaze with color, there being white, pink and red blooms in great profusion. A few of the different varieties of carnations are Queen Louise, white; Mrs. Lawson, pink; Flora Hill, white; Estelle, crimson; and Joce, pink. A large display of rose plants occupy the third and largest bed. Red, white and pink roses, both in the richness of full bloom and in bud, are to be seen. Some of the leading varieties of roses are Bride, Meor, Kaiserin Augusta Victoria, and Bride maid. In all there are upwards of 350 rose plants. There is also a small bed of American Beauty roses. These roses are now coming out in bud and are one of the choicest varieties of roses known to horticulturists. In the fourth bed are chrysanthemums in great profusion. These are now commencing to bloom. Set away in pots are about fifty ilies which, it is expected, will be in bloom about Easter. There are also a large number of hyacinths, tulips and narcissus bulbs set away.

Although the greenhouse has only been established a short time, it presents a very attractive appearance and is well worth a visit.

Railway Notes**Times:**

The piling for all the new bridges on the C. P. R. branch east of Wetaskiwin is now on the ground and it is expected that driving will be completed in a month.

The grading on the line here is much in advance of the Lacombe branch, only about sixty per cent of the work being done down there.

The railway construction on the Wetaskiwin branch line for this year is practically concluded. But Phelan & Shirley's camp has yet a couple of small hills to go through, which will not take long if the favorable weather continues. This winter an additional twenty-five miles will be surveyed at the end of both the Wetaskiwin and Lacombe branches.

ABSOLUTELY UNSHRINKABLE

We Guarantee It.

Every garment, bearing the Stanfield label—no matter what its price—is absolutely unshrinkable. We guarantee it, and back up that guarantee with "money back if it shrinks."

Shoe Clerk—"Yes, madam, we find that of all the shoe polishes, nothing approaches

2 in 1

in giving satisfaction to our customers."

Lady—"I'm glad to hear it. I have a box of one of the so-called 'just as good as 2 in 1' polishes," and it is no good. It's a pleasure to deal with a house that sells what you want."

Shoe Clerk—"Well, madam, I would be very foolish to try to sell substitutes, for '2 in 1' is the best shoe polish made."

Black and Tan—10 and 25 cent boxes and 15 cent collapsible tubes. At all dealers.

ONE of the advantages of the Cuban tobacco I procure, is that it is almost entirely cured by nature.

The climate is so hot that the tobacco sweats naturally—the leaf is ripened uniformly and the subsequent process of curing favorably promoted.

With the expert attention the leaf receives in Cuba, it is pretty thoroughly cured and preserved—and its fragrant aroma developed by having been slowly fermented. I allow it to remain in my warehouse from 2 to 3 years, until it has sufficiently aged and has that mellowness that age alone can give. It takes a lot of study and experience to know when Havana tobacco is just right. Parash tobacco is always just right.

STRATHCONA RINK

Work has commenced on the new Strathcona rink. It is situated a short distance south of the Brackman-Kermill. It will be a large structure 210 feet by 83 feet, affording ample accommodation for skating and curling rinks.

Winter sport in our sister city has suffered to a large extent from the poor rink which Strathcona has had. Nothing has set this drawback more than the Strathcona Hockey Club. At nearly every match last winter on their own ice, the Strathcona public were conspicuous by their absence, which certainly did not act as a stimulus to the home team. This year with the accommodation afforded by an up-to-date covered rink, hockey enthusiasm should flourish as it never did before. The better the hockey team that Strathcona has, the better will be the Edmonton team. Strathcona is Edmonton's natural rival in the realm of sport. A poor team in Strathcona for even one season would hurt sport to a very great extent, for the interest and enthusiasm which grows out of keen contests would lessen with the corresponding falling off in the practice and consequently the ability of the Edmonton team. Both towns are keen as they are from other correspondingly large centres must have almost equally efficient teams if either one is to be able to send a seven to Winnipeg or further east in the search for laurels. In view of this, the announcement that Strathcona has recently commenced the erection of a new rink, and of such a large and up-to-date structure is received with a great deal of satisfaction in Edmonton. The Strathcona hockey club, who are largely responsible for agitating and carrying out the plans for the new rink are to be congratulated on the success which has attended their efforts.

THE MARKETS

Butter—From twenty to twenty-five cents per pound is paid for butter. There is a very strong demand for choice print butter.

Eggs—Eggs bring from twenty to twenty-five cents per dozen. The demand for fresh eggs continues strong and for strictly fresh eggs merchants pay as high as thirty cents a dozen.

Potatoes—There is a good demand for potatoes at twenty-five cents a bushel.

Hay—From five to eight dollars a ton is paid for hay, there being a good demand for hay owing to the approach of winter.

Oats—Oats are coming in in fairly large quantities. Twenty and twenty-one cents per bushel is being paid for feed oats and twenty-three and twenty-four cents for milking oats.

Wheat—Wheat has been coming in in large quantities during the past week. The sample is good and eighty-five cents per bushel is paid.

Hogs—The strong demand which has been prevailing in Edmonton during the past summer for hogs still continues. Four and three quarter cents per pound live is paid. Local dealers still continue to receive large offerings from the country.

Beef—The cattle market is very dull. Cattle are being bought almost entirely by the head.

Fowl—There is a good demand for fowl at the following prices, dressed, chicken 8 to 10 cents; ducks, 10 cents; geese 12 cents; turkeys, 14 cents.

FORFEITURE OF LAND FOR TAXES

In an item in the Bulletin of the 16th inst., under the heading "Collection of School Taxes," it was stated that as soon as the overseers returns are confirmed, owners of the property are again notified. In order to prevent a possible misunderstanding we might say that only one notice is given, and that is the one given before the application to be confirmed. After the returns have been confirmed the owners have a year in which to redeem. After the year is up the title is vested in the Crown.

Made big enough for a big man to work in with comfort. Has more material in it than any other brand of shirt in Canada. Made on the H.B.K. scale it requires 30% to 42 yards per dozen, whereas common shirts have only 32 to 33 yards.

That's the reason why the H.B.K. "Big" Shirt never chafes the armpits, is never tight at the neck or wristbands, is always loose, full and comfortable and wears well.

Each shirt bears a tiny book that tells the whole history of the "Big" Shirt, and also contains a notarial declaration that the H.B.K. "Big" Shirt contains 39% to 42 yards of material per dozen.

Sold at all dealers but only with this brand—

Orange Meat
A Perfect Food

The Canadian Northwest Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 2 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, of 160 acres, more or less.

ENTRY.—Entry may be made per district in which the land to be taken is situated, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.
(2) If the father or mother, if the father is deceased, of any person who is eligible to make a homestead entry under the provisions of this Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent, may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3, or 4, must or substitute 20 head of stock, with buildings for their accommodation cultivate 30 acres of his homestead and have besides 80 acres sub-fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years, before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

JAMES A. SMART, Deputy Minister of the Interior. N.B.—In addition to Free Grant lands to which the regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

TELEPHONE SYSTEM PURCHASED

Edmonton Will own its own Telephone System. The Business of the Edmonton District Telephone Company Becomes the Property of the City.

The city council held a short session yesterday afternoon, the mayor and all the councillors being present. The most important business transacted was the purchase of the local telephone system. For a number of weeks past the council have been discussing the advisability of purchasing the system. Yesterday afternoon an offer was received from Mr. Taylor, and the council decided to close the bargain, subsequent to the endorsement of the agreement by the ratepayers.

It was moved by Councillor Grier, seconded by Councillor Fraser, that the offer of the Edmonton District Telephone Company for the sale to the city of the telephone plant, business, etc., at \$17,000.00, be accepted, and that the solicitor be instructed to prepare for the next regular meeting a by-law for submission to the ratepayers for carrying out this purchase, and making necessary extensions.

The city will take possession of the system on January 1, 1935. In the meantime the city will have the benefit of all contracts made by the company, which will continue the installation of the necessary new instruments and the complete management of the system until January 1, on the same lines as if this bargain had not been made.

A communication was received from H. E. Daniel, secretary-treasurer of the village of Port Saskatchewan, asking for further particulars regarding the purchase of the old Edmonton electric light plant. Mayor Short and Councillor Fraser were appointed a committee to take the matter up and meet a committee of Port Saskatchewan council. They were given full power to act.

Mr. Wardell and his house moving outfit were engaged at \$25 per day to move a number of houses on the eastern extension of Jasper avenue. Thos Elliott was appointed to look after the city's interests during the carrying out of the work.

COLLEGE OPENING

The formal opening of Alberta College building took place last evening and in every point of attendance, interest and talent, was a huge success. The attendance numbered between six and eight hundred. The building in all its four stories was crowded to the limit. Prof. and Mrs. Hildebrand received in the large class room on the ground floor. Refreshments were served in the dining room of the basement. The programme was rendered in the Methodist church upon the grounds of which the College building is situated. The chair was taken by Mr. H. C. Taylor, chairman of the College board of directors. The church which has a seating capacity of 300 was crowded and upwards of 200 who had attended the reception in the College building were unable to find seats in the church. The proceedings were opened with prayer by Rev. A. MacDonald of the Baptist church. A short address

by the chairman followed. Then an address by Rev. D. G. McQueen of the Presbyterian church, piano solo, "Wedding Day," by Miss Crawford, address by Mr. J. T. Fowler of Wetaskiwin, address by Rev. Mr. Corey, Baptist minister of Strathcona, vocal solo, "L'ou du Bal," Miss Edith Webster. An encore was demanded but Miss Webster did not respond. Address Mr. W. Horne, Lacombe; vocal solo, "To a in Heaven," Miss Webster. This also brought a call for an encore; address on "Education" by Chief Justice Eiton of Calgary, piano solo, Percy Stook; address by Prof. Ridell, principal of the College. The professor spoke feelingly of the progress that had been made in one year. On the day the College had opened a year ago in a rented building not one student offered. To-day they had a beautiful and commodious building of their own with an attendance of over 90 students. The proceedings closed with "God Save the King."

"Fleur de Lis"

Galvanized Iron

would be the best in Canada, if we stopped making "Queen's Head" It's next best.

The Small Boy

He indulged much too freely in pie and plum cake, And during the night his "tummy" a'd ache, They run for the doctor, who knowing the fault, Without hesitation prescribed "Abbey's Salt."

Mothers, who want their children to grow into sturdy men and women instead of pale, salinoly dyspeptics, should see that the youngsters take a morning glass of ABBEY'S SALT. Children eat irregularly—indiscreetly. ABBEY'S SALT strengthens the stomach—regulates the bowels—so that "pain-killer" and "oil" are never needed. So pleasant to take, that mothers have no trouble in teaching the children to use it.

REVILLON BROTHERS STORES.

EDMONTON AS A MANUFACTURING CENTRE

Continued from page 6.

sorts and conditions of trade and requirements: toilet corners and ship berth and hammocks quilts with names and monograms. Some colors in linen equal silk and in great profusion and artistic beauty; upholstery in tapestry and carpets in many variety, too numerous to mention in the limited space allowed. Spun yarns occupy a very large space in the trade; twines of all kinds and colors, in bank, ball and long bundle; Jacquard harness twine from 2-3 to 8-30; also single top and double top for machine; cord and fish lines of all kinds, for every purpose; and also binder twine.

If this business was gone into with the spirit it deserves it would build Edmonton more than anything. She would have all to herself, and would not be dependent on outside sources for its raw material. Besides, it would raise up a great trade in the flax seed, linseed oil, linseed meal and cake. I have only touched the fringe of this great question of textile manufacturing. Towels alone would take up at least five hundred looms to cope with the trade for hundreds of miles around Edmonton and thousands of acres sown with flax to supply the raw material.

Manitoba alone in 1932 produced nearly 650,000 bushels of seed. In addition to the seed there is the flax fibre which is mostly destroyed, and which should have found a good market in Canada, for there is no reason why we should not have the factories for the manufacture of the flax which we can grow, as well as cotton factories for the manufacture of cotton which we cannot grow. The amount of flax fibre

imported into Canada for June, 1932 was \$1,379,610, which would mean about 183,000 lbs. of fibre. This, coupled with the acreage for seed, would take up at least 14,000 acres to grow.

In conclusion, with the machinery and processes incomparably superior to any other in use, with supplies of raw material at our very doors, practically inexhaustible, with the latest fully equipped and up-to-date textile plant, with an assured market for all the goods manufactured, with splendid facilities for shipping, and an avenue to the world's market without parallel, it must be apparent to the most conservative that the success of a company undertaking this work is assured. In addition to being a most remunerative investment for its shareholders, and that of the locality, wherein work might be established, a new industry would be built up, a new field for labor, and new assets for the community. I trust this new city will have the pleasure of labelling the output of such a company at an early date—"Made in Edmonton."

JOSEPH BRADSHAW

A Warning

A very sad affair occurred at Cardston recently, and as a result two young lads have found a premature grave. It appears that four boys on that day found some bottles of root beer amongst some oil traps deposited on a vacant lot by Mr. S. H. Campbell, and then sought a nearby straw stack to enjoy their find. Two of the boys drank from one bottle, and Frank Hinman aged 11, and Charles Woolf, aged 13 drank from another, the latter boys remarking that their drink was bitter. Shortly afterwards they became very sick and one of the other boys having told his father, who lived close by, the latter found the Woolf boy lying on the ground in convulsions, and the

Hinman boy was picked up close by in an unconscious state. Death ensued shortly afterwards. At the inquest Mr. Campbell testified to using strychnine last summer to kill gophers, placing the bottle containing it on a shelf in the back room, and this bottle must have inadvertently become mixed with the others containing root beer. The jury found that the boys came to their death through drinking strychnine found on the premises of S. H. Campbell, and added a note of censure to Mr. Campbell for permitting a deadly poison to be exposed in such a manner that children might lose their lives from same.

LOCAL

The council of local improvement district 27 S 4 will hold a meeting in the Edmonton council chamber next Saturday afternoon at one o'clock.

Talbot's majority in Strathcona is 6,985. The total vote for the three candidates in that constituency was 5,871. The total vote of the Edmonton constituency was 5,061.

A report of a meeting of the Board of Alberta College last evening was handed in for publication too late for to-day's issue. It will appear Monday.

E. Sherman of Vankleek Hill, Ont., has arrived in Edmonton. Mr. Sherman is an expert hockey player and was a member of the Vankleek Hill hockey team two years ago when they won the Lower Ottawa Hockey Association championship. Efforts are being made to get Mr. Sherman a position in Edmonton as he would be a strong acquisition to the Edmonton hockey team.

PERSONAL

A. T. Curbing left this morning for a short holiday trip to points down the line.

Mrs. L. Ross left this morning for Nelson, B. C., to visit her sister Mrs. S. S. Taylor.

Mr. and Mrs. J. F. Fowler, of Wetaskiwin, arrived in the city last evening to attend the opening of Alberta College.

Mr. and Mrs. Gus Doss and Mr. and Mrs. Robt. Hare of Beaver Hills are in the city to-day. They attended the opening of Alberta College last evening.

THE WEATHER

The wind blew at the rate of 24 miles an hour last night.

CHURCH SERVICES

At the Presbyterian church to-morrow, the services will be taken by Rev. D. G. McQueen.

In the College avenue Methodist church, the pastor, Rev. Chas. H. Huot, will preach morning and evening. Morning subject, "The Wise Men of the Old Testament." Evening subject, "A great picture as a teacher." The Sunday school meets at 3 p.m. A cordial welcome extended to all.

Kristine avenue Methodist church. At 11 a.m., Mr. Jamieson. At 7 p.m., Rev. E. W. Cox. Sunday school at 3 p.m. The seats are free. Strangers are welcome.

Pastor McDonald will conduct the services at the Baptist church morning and evening. The subject of the evening address will be, "Our own company."

At St. Joachim's church to-morrow the sermon will be in French at the 6 o'clock mass. Rev. Father Philip got O.M.E. will officiate at High Mass. The sermon in the evening will be, "The attitude of the Church towards the Secret Societies."

The regular services will be held in All Saints' church, and will be conducted by the Rev. H. A. Gray.

MACKENZIE ELECTION

The polling in the Mackenzie election was held on Tuesday Nov. 14th. The candidates were Dr. Cash, Liberal; Dr. Patrick, Conservative; and Mr. G. Hara, Canadian. The bulk of the vote of the district in the Yorkton district of East Saskatchewan, but the district included the whole north western part of the Territories with some polls which could be heard from for some weeks. These, however, will be decided this night. In the Yorkton district Cash had a majority of 4,942, 22,901 with 37 polls to show from which would undoubtedly increase his majority, as Yorkton, for which Dr. Patrick was M. L. A., was also polled. At Garryton a poll which can tilt the scales lived near the Patrick poll where Dr. Patrick received a majority of 110 at the local election two years ago but in a minority of 71 on Tuesday.
